Dear Reader:

This edition of our Maps, Graphs & Statistical Data carries forth the tradition started in 1972 of providing an annual compilation of data depicting the pulse of the Palm Beach County economy. We have carefully chosen data to include in this year's publication to provide a detailed but fairly broad view of the population dynamics, economic indicators and social characteristics of the County.

Much of the data contained in this publication is original and will be found in no other documents unless excerpted from ours. Still other data is compiled, edited, or reprinted from State or federal surveys and censuses.

Our intent is presenting a useful, timely array of data to aid you in your market analysis, project formulation, site selection, feasibility study, or general appreciation of the Palm Beach County economy. Should you require additional, more specific data or maps, or if you would like to see certain types of information contained in future editions of this report, please contact our Research Section.

Thank you for your interest in Palm Beach County.

Sincerely,

Frank W. Brutt
